Working Women Facts!

There were 70 million women employed in 2006, a significant increase from 18.4 million in 1950. 60% of women participate in the U.S. labor force, and they represent 46% of the total 2006 labor force. In 2006, 38% of employed women worked in management or professional and related occupations while 34% worked in sales and office occupations; 20% in service occupations.

Election 2008!

The BPW/PAC announced earlier that they were endorsing Barrak Obama, citing his strong support of working women and their families. "Senator Obama's assurance that he will ratify the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW) and his support of reproductive rights, programs to fight violence against women and passage of the Equal Rights Amendment makes it clear that he is committed to ensuring that women's voices will be heard in his administration," concluded Board Chair Freer. Remember to vote, stand up for what you believe in and make a difference in your country.
